

Little Favours

Kt Tunstall

I slip softly through
Your slim fingers
Leaving traces
I embrace this
Feeling that lingers
Oh that lingers, that lingers

So take me far away
And hold me close to your heart
And do me just this little favor
For I do, yes I do love you

This silence sits easy
So peacefully
Like the skin
Oh like the skin
Upon your body
Oh on your body, your body

So take me far away now
And hold me close to your heart
And do me just this little favor
For I do, yes I do love you
Yes I do love you

This little universe between our backs
So beautiful and colorful I lean on that
