

## Lost

Kt Tunstall

Following my nose  
A detective with no lead  
Only my dreams know  
What's got into me  
I run by your side  
But I'm out of breath  
Lower than the sea  
And it's killing me  
And it's killing me

If I choose to go with the way I'm feeling  
Does it really mean that's the way it is  
Is it just a trick that my eyes are playing on my mind  
Following the passage of least resistance  
Following the pack just to pass the gate  
It's a little late for a change of plan  
Don't you think

I got lost following you  
Following you

There's a camaraderie  
In a number for my chest  
Do this and do that  
And forget the rest  
But as the tide retreats  
It's showing me the shore  
There's danger going deeper  
But I can't be here anymore  
Can't be here anymore

If I choose to go with the way I'm feeling  
Does it really mean that's the way it is  
Is it just a trick that my eyes are playing on my mind  
Following the passage of least resistance  
Following the pack just to pass the gate  
It's a little late for a change of plan  
Don't you think

I got lost following you

What did I do that for  
Am I an idiot  
What did I do that for  
Am I an idiot  
What did I do that, do that for  
I run by your side  
But I
