

Through the Dark

Kt Tunstall

As I walk away
I look over my shoulder
To see what I'm leaving behind

Pieces of puzzles
And
Wishes on eyelashes fail

Ooooooh!
How do I show all the love
Inside my heart

Well this is all new
And I'm feeling my way through the dark

And I used to talk
With honest conviction
Of how I predicted my world
I'm gonna leave it to to star gazers
Tell me what your telescope says

Oh what is in store for me now?
It's coming apart

I know that it's true
'cause I'm feeling my way through the dark

Try to find a light on somewhere
Try to find a light on somewhere
I'm finding I'm falling in love with the dark over here

Oh oh what do I know I don't care
Where I start

For my troubles are few
As I'm feeling my way through the dark
Through the dark
I'm feeling my way through the dark
