

# Under the Weather

Kt Tunstall

1. Under this national rain cloud  
'm getting soaked to the skin  
Trying to find my umbrella  
But I don't know where to begin
2. And it's simply irrational weather  
Can't even hear myself think  
Constantly bailing out water  
But still feel like I'm gonna sink
- R: `Cos I'm under the weather  
just like the world  
so sorry for being so bo-o-old  
When I turn out the light  
you're out of sight  
although I know that I'm not alo-o-one  
Feels like home  
Feels like home
3. Under this national rain cloud  
I'm getting soaked to the skin  
Trying to find my umbrella  
But I don't know where to begin

R:

4. You say you feel like a natural person  
You haven't got nothing to hide  
So why do you feel imperfection  
Cut like a sword in your side

R: +

feels like home  
feels like home  
yes it feels like home

yes it feels like home

Oh, coz I'm under the weather  
Just like the world  
And I need somebody to hold  
When I turn out the light  
You're out of sight  
Although I know that I'm alone  
Feels like home
