

## White Bird

Kt Tunstall

White bird with a black tail  
Half dark, and a face so pale  
Do you know what your future holds?  
Over your side of the road

White bird with a black tail  
You look like an open sail  
Made me look up from your shoes  
To show me what you stand to lose.

White bird, white bird  
With your face so pale  
White bird, white bird  
Where'd you get that tail?  
White bird, white bird  
With a black tail

White feathers dipped in tar  
Hard to tell how old you are  
Wondering how much you know  
About all of us below

Half of you is heavenly,  
Showing off your purity.  
The rest of you is from the street  
Like to laugh where they both meet

White bird, white bird  
With your face so pale  
White bird, white bird  
Where'd you get that tail?  
White bird, white bird  
With your face so pale  
White bird, white bird  
With a black tail.
