

Grow

Kubb

Who said
Broken pieces don't mend
I say
I say to think again

You may
Take advice from all your friends
But I say
That I'm living in your head

Just let it grow
Let it grow inside of you
Let it grow
Let it flow inside of you
Let it grow let it grow let it grow

She said that it's easy for men
And I said that we all feel the rain
Then she said
Move a little closer then
Who says that broken pieces don't mend

Just let it grow
Let it grow inside of you
Let it grow
Let it flow inside of you
Let it grow let it grow let it grow

'Nause in the garden of reason
You can't change what you're given
But you can go where the river flows

Let it grow grow grow grow
Let it grow grow grow grow

Yeah yeah yeah let it grow

Yeah
Let it grow

Life gives you a hand
You're playing by the rules
You'll never come through it.

Life gives you a hand
You're playing by the rules
You'll never come through it.
