

Into The Deep

Kula Shaker

Into the deep, the long forgotten sleep
You can feel that your eyes are shut closely now.
Where do you go, there's no-one that can know
As you lie you can try to be happy now.

Fly brother fly,
May you feel your love tonight,
Fly brother fly,
Well I hope you meet your maker.

Enter your heart, and never let it part
Yesterday was a lie so be happy now.
When all you can feel is what you take as real
Come alive, realise it's a feeling.

Fly brother fly,
May you feel your love tonight,
Fly brother fly,
Well I hope you meet your maker.

I know, the time has come to let you go
Time to sleep, to sleep.

Fly brother fly,
May you feel your love tonight,
Fly brother fly,
Well I hope you meet your maker.
