

Knight On The Town

Kula Shaker

She had been waiting all week for her knight on the town
He saw a lost soul of heaven that walked on the ground,
Well the motor car felt like a carriage
The disco became as a palace and shone like a crown,
It shone like a crown.

All that we said was forgotten now we don't belong
Games for the lost souls of heaven that walk on the ground.

Monday arrived but inside she was feeling so blue
Where was the garden of Eden she thought had come true?
Well, she felt like she should have been praying
Her love was a memory fading but what can you do
When you're feeling blue.....

All that we said was forgotten now we don't belong
Games for the lost souls of heaven, yeah!
All that we said was forgotten now we don't belong
Games for the lost souls of heaven that walk on the ground!
All that we said was forgotten now we don't belong.
