

Persephone

Kula Shaker

Deep below the world Persephone
sings of love forgotten
calling out across the river Persephone

Deep below the world Persephone
waits upon her rescue
Mother Nature's only daughter Persephone

She saw the dawn with the light in her hair
Twisted and torn she was taken from there
now she's down down down

Oh my dear Persephone
Your heart sings a melody
Hope your safe and sound ... under ground

Now she's gone the world is calling
calling for her loved one
calling out across the river Persephone

Now the winter is frozen and poor
come back Persephone and reborn
come back my darling we miss you my darling return ... turn ...
turn
retur.....n

Deep below the world Persephone
sings of love forgotten
hear her song the willow weeping

Persephone, Persephone

Oh my dear Persephone
Your heart sings a melody
Hope your safe and sound ... under ground
