## **Revenge of the King**

**Kula Shaker** 

Freedom, spring has come Healing everyone God bless the King

Brothers gather around, get ready to sing We been waiting so long Revenge of the King

The oil has run dry The great seas did rise And the water ran under your door Everybody knows there'll be more…

Freedom, tears of joy Weeping, love of God God Bless the King

Brothers gather around, get ready to sing See the demons afraid Revenge of the king

There's a breed of man With blood upon his hands He was crazy since the day he was born But we don't have to fear them anymore

Say I don't wanna die like a rat on a ship I don't wanna die for somebody's kicks Give me some fire In my hand I'm just a loser but-I'm gonna make a stand

Freedom, tears of joy Weeping, love of God God Bless the King
