

God's Got It All In Control

Kurt Carr

If you can just hold on my brother
Just be strong my sister, God, oh God
God's got your problem all in control
He's working it out, it's all in control

So just hold on, God will be there
In the midst of your storm
So dry your eyes
God's got your problem all in control

He's working it out, He's working it out
He's working it out, it's all in control
