

I Feel So Smoochie

Kurt Elling

I feel so smoochie
When I hold your hands and look in your eyes
I feel so smoochie when I touch your lips and I realise
That to hold you near make rainbows appear
And life is just one long kiss
With the moon shinning down
And the stars kinda frown
And say golly, just look what we miss

I feel so smoochie
When the night is cool
It's always warm here with you
I feel so smoochie
When a seat for one becomes a loveseat for two
And I'll know my career starts and ends right here
Right in your loving arms
Smoochie little girl you,
Smoochie ole character me
