

In The Winelight

Kurt Elling

In the wine light, livin' lovin's soft delights
Smooth and mellow, feelin' how we move so right
We're lettin' the time go, and takin' it nice and slow.

In the wine light, lazyin' through this all night flight
Higher and higher, baby, touchin' you with second sight
We're over the rainbow, it's time to let it flow

Baby, you're my lover, no other I'd ask to stay
And make a hideaway with me.
Dreaming in Burgundy

Lookin' out the window at the universe's starry array, we can s
ay
"Everything's OK, you see" as long as you're here with me

We can leave the world or make it go.
We can lose it in the undertow
If you say it's true, then we can push it away
As long as you stay
Whatever you say
Please, baby, just stay

And let this wine light, colour every look tonight
Feel the love grow, and let our spirits reunite
We never will let go, until we overflow
