

Before You Leave

Kurt Nilsen

Stay, stay a little longer.
Do you have to go away?
Stay stay for tomorrow.
Then I will know, if I'd rather be alone.

Take, take a moment of time and turn it back
So we can start from scratch
Suppose, I'll leave all I've got
Would it make it easier on your heart?

Well I'll take what I can before you leave
If that is just a smile
I'll stay up all night, so I can watch you breathe
If that is alright
Come on and show me that silky skin
You're oh so fine
I know we could turn it right
I know we could turn it right

Throw; throw me a lifeline way out to sea
Would you save me if it all goes wrong?
Grab, grab me 'cause I'm yours
Forever that's for sure
Because that's what I want you to tell me

Well I'll take what I can before you leave
If that is just a smile
I'll stay up all night so I can watch you breathe
If that is alright
Come on and show me that silky skin
You're oh so fine
I know we could turn it right
I know we could turn it right

But it's all an illusion
Easier said than done
Let's make a conclusion
Is it worth giving it a try?

Well I'll take what I can before you leave
If that is just a smile
I'll stay up all night so I can watch you breathe
If that is alright
Come on and show me that silky skin
You're oh so fine
I know we could turn it right
I know we could turn it right

Come on and show me that silky skin
You're oh so fine
I know we could turn it right
I know we could turn it right
