

Country Music

Kurt Nilsen

We got the roll of the beat of the drums
And the base comes blasting on
And the light that blinds your eyes
And the guitar soundin nice
And the girls that are front row
Well, their hollowing for some more
As the piano plays, we sing along
With the nothing coming away

We're gonna have a good old paaaarteey
The chord is gonna happen here
So let your self feel right at home
We only want you to have some fun

Put on that old country music
And the songs we used to sing
And the ladies in the corner
Oh, it looks like they've got a plan

Oh, we're gonna paaaarteey
Yeah

You got the road, the beat and the drum
Get the base right where it belongs
There were drinks on the house, fightin and cheatin
And bottles lying around

We've been loving, laughing and kissing
There ain't a God damn thing you'd miss in
So welcome everybody
We're gonna make a hell of a story

We're gonna have a good old paaaarteey
The show is gonna happen here
So let your self feel right at home
We only want you to have some fun

Put on that old country music

And the songs we used to sing
And the ladies in the corner
Oh, it looks like they've got a plan

And it seems to me we can use a break
Let out the steam for the night
So don't go thinking about tomorrow
It will only bring you down

Yeah, we're gonna paaaarteey
Woo
So when we close down, head on home
We gonna laugh about the things we've done
And when you come back to your senses
You wanna head on back to where the party
Has just begun

Put on that old country music

And the songs we used to sing
And the ladies in the corner
Oh, it looks like they've got a plan

And it seems to me we can use a break
Let out the steam for the night
So don't go thinking about tomorrow
It'll only bring you down

Yeah, we're gonna paaaaarteey
Ooh
