

# Hate How You Say Goodbye

Kurt Nilsen

I will never forget, i left my heart in the city  
I will never regret, the time that we spend together  
you'll always be the love I never had

Hate how you say goodbye, I can't stand it no more  
How you swallow your pride, and went out the door  
Hate how you say goodbye  
Well one of these days I'm coming back to claim what is mine

I saw you with a smile, it thore a whole in my poor heart now  
You struck me like a lightning from above  
I know some day we'll be together  
You'll always be the love I never had

Hate how you say goodbye, I can't stand it no more  
How you swallow your pride, and went out the door  
Hate how you say goodbye  
Well one of these days I'm coming back to claim what is mine
