

# Last Day Of Summer

Kurt Nilsen

Keep the spirit up  
You're in the zone  
You're doing fine

Long lost kisses  
Wet goodbyes  
Are yet for you to define

The future's bright, you passed your grade  
You're just about to get laid  
Oh, yeah

Wake up late with a smile  
Just knowin' it's alright  
To fall asleep again

The girl from yesterday leaves a number  
But you really don't have to take a stand  
It's alright you do what you like

The last day of summer has gone  
Autumn leaves have covered your lawn  
The last day of summer moved on  
The only thing that counts is the woman you won

Take a look around  
This may be  
Your last warm sunny day

Ask your friends to come along  
And share a Kodak moment for keeps  
For good old memories

The last day of summer has gone  
Autumn leaves have covered your lawn  
The last day of summer moved on  
The only thing that counts is the woman you won

The last day of summer has gone  
Autumn leaves have covered your lawn  
The last day of summer moved on  
The only thing that counts is the woman you won
