

# Never Easy

Kurt Nilsen

Never Easy

'''

Hmm hmm

Verse 1

Don't mind if you treat me bad again, I don't care anymore  
Life's too short to make trouble out of small things  
It is better this way, I'm sort of laid back today  
Close my ears when words come flying out, I've heard them all before  
With just a lot of hope flushing down the drain, it is better this way  
I am going away

Chorus

I tried and then some more  
Instead of dragging the both of us down  
Divide separate ways  
It's never easy this way, it's never easy this way

Verse 2

My palms are sweating, I'm barely aware, what I'm turning down  
This awful life that is what I've been told think it's better this way  
I will regret it one day

Chorus

I tried and then some more  
Instead of dragging the both of us down  
Divide separate ways  
It's never easy this way, it's never easy this way

Verse 3

Talk to me, throw the ball back  
I've been here before there is no turning back  
Talk to me just tell it like it is  
Just two afraid souls, going at each other, at each other  
We're at the crossroad going separate ways, time to say it as it is  
And if we bump into each other one day we'll be better then  
Maybe we can start all over again  
Yeahhh

Chorus

I tried and then some more  
Instead of dragging the both of us down  
Divide separate ways  
It's never easy this way, its never easy this way  
I tried and then some more  
Instead of dragging the both of us down  
Divide separate ways  
It's never easy this way, it's never easy this way
