

# Soon It's Gonna Change

Kurt Nilsen

She's cruising down the avenue  
The wind in her hair  
Got money in her pockets  
A sweet love affair  
She won't change her mind  
No, it's all made up  
With the suitcase in her trunk  
Just wanna go somewhere

Soon it's gonna change  
For me

Been waiting for a long time  
But her will was weak  
Got put down by everyone  
Or so to speak  
But she haven't yet found her place  
She don't know where it is  
Hoping love will turn to her benefit

Soon it's gonna change  
For me

Well, it is good that you have made it through  
And in the end your wishes will come true  
You've been waiting all your life for something new  
And now you're on your way

So if you stumble and fall  
If you get lost and lonely  
If it gets hard to breathe  
Know that...

Soon it's gonna change  
For me
