

Air Bud

Kurt Vile

Strange, strange days is inside
My mind is daily changin'
And it's charged by
The shifting tones of time flyin'
Just in case you were wondering where I
Was...

Strange, strange days inside
My mind... is daily changin'...
As result of the black cloud comin' down
Just in case you were watchin' the
Horizon...

(We want out and we want it now)
(We wanna take it outta town)
