

# Blackberry Song

Kurt Vile

Man I like your style  
Make it last a little while  
Put your self under the ground  
And you come back around  
I wanna see ya  
Still the same

Girl your like a child  
Your blackberries grow so wild  
Pick the best ones off the bush  
And relish and wish you were alright  
Left  
With lace  
With rightness

My beloved blackberry  
My love for you floats free  
Leave yourself in sound turn around  
Sing me your blackberry song
