

# We Can Freak It

Kurupt

Zzzzzz, zzzzzz, zzzzzz, zzzzzz, owwwwww  
Bounce, rock, roll, and skating  
Bounce, rock, roll, and skating  
Dipping down the street on platinum daytons

I been all around the world, Japan to Amsterdam  
Hitting like switches  
Dipping, hit the switches, which is  
One reason why i gotta make mine  
Cause these fools on the street trying to take mine  
Wassup lady  
Time's getting shady  
You gotta lipstick wit it  
Thats why I'm sick wit it  
Hard to maintain in this world of pain  
But i'ma serve these rhymes like dimes of caine (check it out)  
Why can't we just chill and get along, motherfucker?  
But the views you choose to use is wrong, motherfucker  
Relax, me and baby s got it macked to the tee  
Just ride with me  
Battlecat in the back with a sack on deez  
Ridin' with the young og's (og's)  
Dipping down shaw, fuck all of y'all  
As i bounce rock skate on threes

We can freak it, freak if you want to, dine if you want to, but,  
Cause since i came and you know (2x)

Let me tell you how i started on the grind for mine  
Living life in my rear view  
S, nigga hear you  
About to drop the bomb  
Record one and blue calm, and yukons  
And john hook my shit up bomb  
Who controlling?  
Rollin with my nigga from the pound  
Put my shit in cruise control with bitches all around  
Make me feel like a g once more  
He once smoked  
For free, now it's all about the g's and heat

Oh yeah!  
Blaze up a whole sack to the head  
We wear khakis nigga, fuck jeans  
I'm sure all the g's know what i mean  
Lil locs, young g's and og's  
We on the smash for cash and thats it  
We hit the stash and dash and thats it  
We don't flash we mash we blast shit  
And we don't give a fuck about a bitch but uh

Give it up nigga, throw it up nigga (8x)  
Why you tripping wit me?  
Won't you kick it with me?  
By my block  
Combine da knots  
I got me somebody bad as shit

While all the rest of yall is mad as shit  
I'm dipping down the street in a skyblue Bentley  
Pull up to the curve, then swerve gently  
Ten of the homies, maybe less  
But they all ride with Kurupt, Cat, and Baby S, so uh
