

Down

Kutless

A young girl walks into her room and doesn't like what she sees
In her reflection there, she's not what she wants to be
She cries out, she cries out

The frustrations of this life are filling her head
How could such a simple thing have a grip so intense
She cries out, She cries out
I want to be like the movie stars and models on the screen

She wants to fly away from this
She wants to fly away from this, but she does not know how to
Fly away from this, she wants to fly away

She tries just to be what she's not but
she's destroying herself
She starves herself
The compulsion must end
She cries out, cries out
I want to be like the movie stars and models on the screen

She wants to fly away from this
She wants to fly away from this
but she does not know how to
Fly away from this, she wants to fly away

The addiction is bringing her down
This obsession is bringing her down

She wants to fly away from this
Fly away from this

She wants to fly away from this only God knows how to
Fly away from this He will help her now to
Fly away from this, she wants to fly away
