Remember Me

Kutless

I looked in Your eyes
And saw it for a moment
The passion in Your cry
The chains of life are broken

Put to death by Your people You came to bring us life Only hope for the hopeless Will You remember me?

I've been ashamed
I've been put down
Head in my hands
My life on the ground

Left heaven to save Liars and thieves Sinners like me Your blood sets us free

Who am I
That You would remember me?

Spent all of my years Stealing from the world With everything i had I was still so poor

You have everything to lose But You're dying here with me I believe Will You remember me?

I've been ashamed
I've been put down
Head in my hands
My life on the ground

Left heaven to save Liars and thieves Sinners like me Your blood sets us free

Who am I?

Take what I have left my Savior Take me with You from this cross When I leave this life completely Remember me

I've been ashamed
I've been put down
Head in my hands
My life on the ground

Left heaven to save Liars and thieves Sinners like me Your blood sets us free

I've been ashamed
I've been put down
Head in my hands
My life on the ground

Left heaven to save Liars and thieves Sinners like me Your blood sets us free

Who am I
That You would remember me?
