

## My Own

Kwabs

Fall into me, I got you now  
I won't give up, never let you down  
Let's get it straight, it's time to choose  
I came to play, don't play to lose

You're the next to me  
Now can get in the change  
I've got the key, latch out the cage  
But I want you all for my own

I don't need no other love  
There can be no other love  
You don't feel no other love

What if I break into your heart?  
Open the lactic gone that you got?  
What if I hope, and never let it go?  
Could you turn around, and say no?  
What if I step around out of time?  
Could I be got to your mind?  
'Cause I want to be in your love alone  
I want you all for my own  
Put your heart on me tonight  
I want you all for my own  
Turn your shadows into light

Drop it off, take a trip  
Leave the world, that can wreck a ship  
Just you and I, no passengers  
We can take it off  
Every go fast enough  
You got all of me, don't love to spare  
Too much to miss, not enough to share  
I want you all for my own

I don't need no other love  
There can be no other love  
You don't feel no other love

What if I break into your heart?  
Open the lactic gone that you got?  
What if I hope, and never let it go?  
Could you turn around, and say no?  
What if I step around out of time?  
Could I be got to your mind?  
'Cause I want to be in your love alone  
I want you all for my own  
Put your heart on me tonight  
I want you all for my own  
Turn your shadows into light  
I want you all for my own  
Gotta feel to [?]  
I want you all for my own

I don't need no other love  
There can be no other love  
Never believe no other love

'Cause you don't feel no other love  
I don't need no other love  
There can be no other love  
You don't feel no other love

What if I break into your heart?  
Open the lactic gone that you got?  
What if I hope, and never let it go?  
Could you turn around, and say no?  
What if I step around out of time?  
Could I be got to your mind?  
'Cause I want to be in your love alone

I want you all for my own  
Put your heart on me tonight  
I want you all for my own  
Turn your shadows into light  
I want you all for my own  
Gotta feel to [?]  
I want you all for my own, my own, my own

What if I break into your heart?  
Open the lactic gone that you got?  
What if I hope, and never let it go?  
Could you turn around, and say no?  
What if I step around out of time?  
Could I be got to your mind?  
'Cause I want to be in your love  
I want you all for my own
