

## Something Right

Kwabs

Heart beat tells the sky not to fall  
Bring her pains to understand and to confess  
Looking off the room, looking off my fears  
I tell myself just to feel that I'm here  
So let me in and Ill pay you again  
Until the day that Ill take my claim  
...I don't know  
Come on, baby I love not to get in trouble  
I wanna do something right  
I wanna do something right  
Girl, until the sky turns red  
Storm gathers on the other side of my head  
Temptation trying to steal my grip  
Got me running, got me loosing it  
I have a life, I have no doubts  
I'm falling before I fade out  
Now I cleared my conscious and I cleared the scene  
...I don't know  
Come on, baby I love not to get in trouble  
I wanna do something right  
I wanna do something right  
I wanna do something right  
I wanna do something right  
Oh, baby  
I wanna do something right  
Heart beat tells the sky not to fall  
Bring her pains to understand and to confess  
Looking off the room, looking off my fears  
I tell myself just to feel that I'm here  
So let me in and Ill pay you again  
Until the day that Ill take my claim
