Something Right

Kwabs

Heart beat tells the sky not to fall
Bring her pains to understand and to confess
Looking off the room, looking off my fears
I tell myself just to feel that I'm here
So let me in and Ill pay you again
Until the day that Ill take my claim
...I don't know
Come on, baby I love not to get in trouble
I wanna do something right
I wanna do something right
Girl, until the sky turns red
Storm gathers on the other side of my head
Temptation trying to steal my grip
Got me running, got me loosing it
I have a life, I have no doubts
I'm falling before I fade out
Now I cleared my conscious and I cleared the scene
...I don't know
Come on, baby I love not to get in trouble
I wanna do something right
I wanna do something right
I wanna do something right
I wanna do something right
Oh, baby
I wanna do something right
Heart beat tells the sky not to fall
Bring her pains to understand and to confess
Looking off the room, looking off my fears
I tell myself just to feel that I'm here
So let me in and Ill pay you again
Until the day that Ill take my claim
