

Higher

Kwamie Liv

I wanna trust you tonight
I'm sick and tired of running
And I wanna do something right
Baby are you coming?

Whoever told you you're not good enough
Damn them
They lied, they lied
Cos behind every heart of sadness
I know, there's a fire burning bright

So I'mma tell it to you straight
And I'mma do it to you right

I'mma take you back to the old town
I'mma make you dance, spin you around
I'mma shout it out from the rooftops
I want you, and I never want it to stop
Come the break of day we'll be stronger
Won't be nothing that we can't conquer
Baby you and me we are fire
And all I wanna do is
Take you just a little higher
I want to take you higher

I know you've been broken down
I know somebody hurt you
But that was then, this is now
And I'll never desert you

Whoever told you you're not brave enough
Damn them
They lied, they lied
Cos behind every heart of sadness
I know, there's a fire burning bright

So I'mma tell it to you straight
And I'mma give it to you right

I'mma take you back to the old town
I'mma make you dance, spin you around
I'mma shout it out from the rooftops
I love you, and I never want it to stop
Come the break of day we'll be stronger
Won't be nothing that we can't conquer
Baby you and me we are fire
And all I wanna do is
Take you just a little higher
I want to take you higher

So show me where it hurts
Show me where it hurts
And let me be the one to show you
I won't let you down

I'mma take you back to the old town
I'mma make you dance, spin you around

I'mma shout it out from the rooftops
I love you, and I never want it to stop
Come the break of day we'll be stronger
Won't be nothing that we can't conquer
Baby you and me we are fire
And all I wanna do is
Take you just a little higher
I want to take you higher
