

# Kids in Love

Kygo

This is our last goodbye  
Don't come and find me  
So hard to see you cry  
Please, somebody blind me

Cause I can feel it  
I'm still lagging onto every word  
My heart is beating  
And I'm sorry that I left you hurt

We were kids in love  
And then we grew up  
But won't you hold me close tonight  
Like we're kids in love  
Kids in love  
Kids in love  
Kids in love

We were kids in love  
We were kids in love

[The Night Game & Maja Francis:]  
Engine on, in the drive  
Running for hours  
Slowly, we twist the knife  
We're falling like towers

And I can feel it  
And we're running out of hope tonight  
I hear you breathing  
As we're hanging on to you and I

We were kids in love  
And then we grew up  
But won't you hold me close tonight  
Like we're kids in love  
Kids in love  
Kids in love  
Kids in love

Maybe I could cope if I could hold you  
We were kids in love

One last time, one last time  
And I'll never let go, I'll just hold you forever  
Maybe I could cope if I could hold you  
We were kids in love  
Kids in love  
Kids in love  
Kids in love
