

# I'll Call for You

Kyla La Grange

My heart is hardly hurt by her lack  
And I'm on my way to save the world by our chance  
And I'm falling when the water moves right through  
And I'll Call For You when I, when I keep on, keep on, keep on

My years are only hurt, my heart still  
My fear is set behind, I kill  
And I'm falling when the water moves right through  
And I'll Call For You when I, when I keep on, keep on, keep on

Will you keep me looking for that old love?  
Looking for the old love, looking for me?  
Will you keep me looking for that old love?  
Looking for the old love, looking for me?

Will you keep me looking for that old love?  
Looking for the old love, looking for me?  
And I'm falling when the water moves right through  
And I'll Call For You when I, when I keep on, keep on, keep on

And I'm falling when the water moves right through  
And I'll Call For You when I, when I keep on, keep on, keep on
