

# Never That Young

Kyla La Grange

Someone always let you down, and  
Someone always loved you  
Only for more  
You were always hoping we would  
Be the things that we have left our hope for  
But I'm not gonna be your constant  
I'm not gonna be the other heart  
Tell that to anyone  
We were only children when we  
Said that we would never grow apart,  
'Till death has doomed all

What you wear is not what you part  
We seen the silence sold out  
Heart can wait  
And I ain't never see me cold  
And I ain't listening when it's hard to say  
But I'm not gonna be your constant  
I'm not gonna be the other heart  
Tell that to anyone  
We were only children when we  
Said that we would never grow apart,  
'Till death has doomed all

We were never that young  
We were never that young  
We were never that young  
So tell what you need  
I forgot my love  
I forgot my love  
I forgot my love  
But I'm not gonna be your constant  
I'm not gonna be the other heart  
Tell that to anyone  
We were only children when we  
Said that we would never grow apart,  
'Till death has doomed all

Hee-eeey hee-eeey  
Hee-eeey hee-eeey
