

Raise the Dead

Kyla La Grange

Oh don't you wanna go someplace?
Oh don't you wanna be free?
Oh don't you wanna a real-
life romance with a safe bet just like me?

Oh don't you wanna go someplace?
Oh don't you wanna have dreams?
Oh don't you wanna kiss it all goodbye throw your body out to sea

Oh don't you wanna go someplace?
Oh don't you wanna believe?
Or do you want to live your life alone with a kid you never see

And I swear you said we could raise the dead with a song
So I held your hand and we sat and sang for so long
But the night stayed silent, and I knew you were wrong
A song, a song, a song

Oh don't you wanna be someone?
Oh don't you wanna feel fine?
Oh don't you wanna be everything to everyone this time

Oh don't you wanna be someone?
Oh don't you wanna have pride?
Oh will it ever be the way you thought when your heart was young and wild

And I swear you said we could raise the dead with a song
So I held your hand and we sat and sang for so long
But the night stayed silent, and I knew you were wrong
A song, a song, a song

Do you wanna live alone?
Do you wanna live alone?
Do you wanna live alone?
Do you wanna live alone?

And I swear you said we could raise the dead with a song
So I held your hand and we sat and sang for so long
But the night stayed silent, and I knew you were wrong
A song, a song, a song

Do you wanna live alone?
