

## Back In Time

Kyla

I've got time to kill  
I'm not living for the moment anymore  
I don't wanna wake up

I've got time to kill  
I'm not living for the future anymore  
I don't wanna wake  
I don't wanna wake up

She goes back in time  
She goes back in time  
She goes back in time

Time, I wait for you  
Hibernating, hoping life will start again  
Petal in the water

The days all seem the same  
I dream by day, I shut the light out, I escape  
I don't wanna wake  
I don't wanna wake up

She goes back in time  
She goes back in time  
She goes back in time  
She goes back in time  
She goes back in time

Slumping backwards, I forget, I forget  
Time has wrapped its drowsy arms around my neck  
Don't wanna wake up  
Don't wanna wake up

She goes back in time  
She goes back in time  
She goes back in time  
She goes back in time  
She goes back in time  
She goes back in time  
She goes back in time

And back again  
And back again
