

Cold In Colorado

Kyle Park

Every winter time I feel a breeze
Strong as ice water running through my veins
A chill in the air is what I fear
And when I check the weather each year

[CHORUS]

I hear it's cold in Colorado
Cloudy in California
Raining in Oregon
But it's clear here where I'm sitting
With the sun shining on your memory
Somehow I'm left shivering
You're as cold as Colorado for leaving me

There's no telling where you might be
The sandy dessert or near a mountain stream
Wherever you go it's a shame
That it's only the weather I blame

I say it's cold in Colorado
Cloudy in California
Raining in Oregon
But it's clear here where I'm sitting
With the sun shining on your memory
Somehow I'm left shivering
You're as cold as Colorado for leaving me

Girl I know you love to feel the snow
And you don't like this Texas heat
But why does it have to be so hard
To stay with me and never leave
