

# I'm Missing You

Kyle Park

You're still the brightest star  
That lights up my midnight sky  
Every time I think about you  
I laugh right after I cry

You're everywhere I turn  
And your every girl I see walkin' by  
And everyone says I'll get over you  
It just takes time

I've done everything  
To try and let go  
I've done all that I can do

CHORUS:

I'm missing you  
I miss your every move  
Without you around  
I feel my world coming down  
I'm missing you  
I'm thinking all I can do  
Is keep movin' on  
And maybe you'll see you're wrong  
For leavin' me  
And did you know that every night  
When I fall asleep  
Every one of my dreams  
Involve kissin' you  
And everyday I'm awake  
I'm missing you

I talk on the street  
And I can barely speak my name  
Just one thought about you  
And I forget what I have to say

I reach for the phone  
But I know I'm only an old flame  
It would be a tough call  
But after all I'm the one who's to blame

Nothing I've tried  
Can get you out of my mind  
There's nothing that I can do

(CHORUS)

I'm missing you  
I miss your every move  
I'm not strong enough  
To let go of your love  
But girl it's true  
That somehow I keep holding on  
Even though you're long gone

(CHORUS)
