

# Nightmare And A Dream

Kyle Park

She was my girl, my whole wide world  
Every breath that I took was for her  
I'm barely hangin' on now that my angel's gone  
Here I stand in Purgatory  
With no one to do a damn thing for me

CHORUS

I'm stuck in between a nightmare and a dream  
I'm paralyzed, Lord, I can't get free  
Asleep or awake I just can't walk away  
From all of my favorite memories  
I'm stuck in between a nightmare and a dream

The fire down in my soul is burning out of control  
I know fire's fade, but this one never will  
I can't rest in peace without her here with me  
I guess it's better to have loved and lost  
Than to never have had that chance at all

CHORUS
