

Over U

Kylee

We had a spark you caught my eye
Everytime I'd walk by
We were perfect
At least that is what I thought oh
You used to be my everything
I even let you in
Gave you my love and my heart,
Got it back in two

Yes I have been hurt many times
But not like this before
Frustrations come and go
But this ones
Been here for too long

I'm so over it
I see now that I am better off without you
Without you
I'm so over you
I do not need this pain when I am around you
Around you

I am so over it
So over you
I am over it
Over you
I am so over it
So over you

I'm so over it
I see now that I am better off without you
Without you
I'm so over you
I do not need this pain when I am around you
Around you

I'm so over it
I see now that I am better off without you
Without you
I'm so over you
I do not need this pain when I am around you
Around you

Let's go our ways
It's better this way
We'll make it thru

I'm so over you
