

There's just something about you
When I see you now
Feeling something now
Don't know why

You were different from the start
When you said hello
That was when I froze
Cuz when you're

Near me I can't breathe or swallow
Every lovely word I follow
Keep on thinking 'bout tomorrow
And everything to say

I'll wait for tomorrow
Oh darling you can take

All my love is here for you
Can you tell me now what to do
Can't keep my mind offa you
When I see you now
Let's go on

Near you I can't breathe or swallow
Every lovely word I follow
Keep on thinking bout tomorrow
And everything to say

I'll wait for tomorrow
Oh darling you can take

Can't stop thinking about you
Can't you feel it now
This connection
Every time now

All my love is here for you
Can you tell me now what to do
Can't keep my mind offa you
When I see you now
Let's go on

All my love is here for you, Oh
Can't keep my mind offa you
