

# Eye Of Your Storm

Kyler England

I get restless every evening  
When the last of day is fleeting  
Feel like pulling stake and leaving  
I get restless every evening

We are blowing on an ember  
It's the last day of december  
Don't know how we'll make it through the winter  
But we are blowing on an ember

I could be the eye of your storm  
If you let me, baby i could be the eye of your storm

They say nothing lasts forever  
Neither time or space nor weather  
We're gonna make it through together  
Cause baby nothing lasts forever

I could be the eye of your storm  
If you let me, baby i could be the eye of your storm  
If you let me, baby i could be the eye of your storm

We can't outrun this thunder  
Cloud that we've been living under  
The rain is gonna fall  
You're not alone in this mess,  
I am on your side i'm your best bet  
In the middle of it all

I could be the eye of your storm  
I could be the eye of your storm  
I could be the eye of your storm  
If you let me, baby i could be the eye of your storm  
If you let me, baby i could be the eye of your storm
