

We Rise Like Smoke

Kyler England

We rise like smoke to the sky
Our hearts beat like wings higher and higher
Oh to see all the little lights
Oh to be finally reunited
We rise like smoke

Then fall in slow motion
Fall in slow motion
We rise like smoke
Till we are free

There's a winter blush on your cheek
There's an innocent thrill that we are seeking, seeking
Oh to feel like we did before
Oh to leave you still wanting more
We rise like smoke

Then fall in slow motion
Fall in slow motion
We rise like smoke
Till we are free

Only love can save us now
Only love can save us now
The day is gone
It all went wrong
Your foolish heart is all you've got

We fall in slow motion
Fall in slow motion
We rise like smoke
Till we are free
