

Automatic Love

Kylie Minogue

Won't you please forgive me
I feel a stranger here
It seems that I lost all my memories
And all of my fears

I know I'm so crazy
I don't care
Cos it's you that makes me so beware

You put me on automatic love
There's no return I'm on
Automatic love
Nothing can stop me I'm on
Automatic love
Come one and turn it on (automatic automatic)
Turn it on

I didn't feel you enter in my main menu
But every time I touch the key
The screen is showing you

I know I'm so crazy
I don't care
Cos it's you that makes me so beware

You put me on automatic love
There's no return I'm on
Automatic love
Nothing can stop me I'm on
Automatic love
Come one and turn it on (automatic automatic)
Turn it on

No manual control, it's automatic
Oooh so beware

You put me on automatic love
There's no return I'm on
Automatic love
Nothing can stop me I'm on
Automatic love
Come one and turn it on (automatic automatic)
Turn it on
