

# Break This Heartbreak

Kylie Minogue

In the night alone I stay up late  
Even stars so bright, they fade away  
But we can't escape what we made  
But it can wait

This heartbreak, break, break  
This heartbreak, break  
This heartbreak, break, break  
This heartbreak, break  
This heart, heart, heart, heartbreak, break  
This heart, heart, heart, heartbreak  
This heartbreak, break, break  
This heartbreak, break

Every time they say the time is true  
No signs to tell us what to do  
But we can't escape what we made  
But it can wait

This heartbreak, break, break  
This heartbreak, break  
This heartbreak, break  
This heartbreak, break, break  
This heartbreak, break

But we can't escape what we made  
But it can wait

This heartbreak, break, break  
This heartbreak, break  
This heartbreak, break  
This heartbreak, break  
This heartbreak, break
