

# Closer

Kylie Minogue

We'll redesign  
Where we combine  
To be divine  
Love in us

Give me the sign  
In these confines  
We start to shine  
Love in us

Closer and closer and closer  
To you now, never enough  
Closer and closer you pull me  
Give me more  
Soft and slow

We are breathing the same  
We are moving the same  
And we were  
And we are

We've redesigned  
Become aligned  
We are combined  
Love in us

Closer and closer and closer  
To you now,  
Never enough  
Closer and closer you pull me  
Give me more  
Soft and slow

Closer and closer you pull me  
Give me more  
Soft and slow
