

Closer

Kylie Minogue

We'll redesign
Where we combine
To be divine
Love in us

Give me the sign
In these confines
We start to shine
Love in us

Closer and closer and closer
To you now, never enough
Closer and closer you pull me
Give me more
Soft and slow

We are breathing the same
We are moving the same
And we were
And we are

We've redesigned
Become aligned
We are combined
Love in us

Closer and closer and closer
To you now,
Never enough
Closer and closer you pull me
Give me more
Soft and slow

Closer and closer you pull me
Give me more
Soft and slow
