

Feels So Good

Kylie Minogue

I realize, realize
I get a little bit wild sometimes
Am I numb, Am I numb, to what we have become, sometimes
So slip away the mistake, with me
Everything's okay, with me, right
Don't have to run, have to run
We can walk in the sun one last time
And it feels, yeah it feels so good
When you're here
We are here to love

People come, people go

But I like to get to know you now
What is wrong with me, wrong with me
Why don't you belong to me now
So through my way, with me, stay with me
I was a baby right
Am I dumber than I think to time it down tonight

And it feels, yeah it feels so good
When you're here
We are here to love
Not giving up, no
If it feels so good
When I hear, so close
We are to love
