

Give It to Me

Kylie Minogue

I never ask for much
I just want some good good lovin'
More of your tender touch
I don't see the need for rushin'
Take it slow, slow down
Move to the rhythm that is in my mind
Take it slow, you know now
Not too fast, make it last for the longest time

Give it, Give it to
Give it to me like I want it
Give it, Give it to
Give it to me like I want it

I need a shot of love
Cause I got a bad bad habit
Can't seem to get enough
Give it to me cause I gotta have it

Here we go, let's go down
Move to the rhythm that is in my mind
Here we go, let's go now
I'm the lead, follow me
For a real good time

Give it, Give it to
Give it to me like I want it
Give it, Give it to
Give it to me like I want it

Give it, Give it to
Give it to me like I want it
Give it, Give it to
Give it to me like I want it

Givin' all your love to me
Oh so right so can't you see
You're some kind of fantasy
Just like I want it

Hit by love I don't know how
Come to me I want you now
Feel so high I won't come down
Just like I want it
