

# Giving You Up

Kylie Minogue

Last night I lost my head  
And fell right back into your love  
I lay intoxicated while angels circled high above

Deep in a perfect moment  
All at once it feels so right  
But when I wake I see reality turn back and bite

Ah, hah-ah hah-ah  
Ah, hah-ah hah-ah  
Ah, hah-ah hah-ah

Your heartbeats ticking  
And your cool starts dripping

And your tongue tied up on the phone  
Your backbones breaking  
And your smooth starts shaking  
Like you can't stand being alone

Your cot starts rocking  
Like the whole worlds slipping away  
Little doubts start knocking

Attentions killing  
But the ride is thrilling  
But you can't help going again  
What you want is what you don't know

Turn me on and watch your ego  
What you want is what you don't need

Stand up when your talking to me  
Chorus:

I'm lost without you  
I can't start giving you up  
Can't stop tickin the tock  
I can't start giving you up  
I'm mad about you  
Can't stop slipping it off

I can't start giving you up  
I'm lost without you  
Can't stop tickin the tock  
I can't start giving you up  
I'm mad about you  
Can't stop slipping it off

A girls got to suffer for fashion  
She finds a man and she makes it her passion  
She knows what her body can do-ooh-ooh  
I'm happy trying all the time with a boy like you

A girls got to suffer for fashion  
She knows what her body can do, ooh-ooh  
She finds a man and she makes it her passion  
I'm happy trying all the time with a boy like you

I can't start giving you up  
I'm lost without you  
I can't start giving you up  
I'm mad about you  
Chorus:  
I can't start giving you up

I'm lost without you  
I can't start giving you up  
Can't stop tickin the tock  
I'm mad about you

Can't stop slipping it off  
I can't start giving you up  
Can't stop tickin the tock  
I'm lost without you  
I can't start giving you up  
Can't stop slipping it off  
I'm mad about you

Ah, hah-ah hah-ah
