## **Glad to Be Alive**

## **Kylie Minogue**

Ohh life's so hard

Someday's you need something new to wear Like a brand new hat

Try so hard To work it out People try to hold you back On day's like that You need another hand

It's the same all over the world People have to earn a living Now you're so far from the troubles at home Leave them alone And they'll work themselves out

We love it Glad to be alive I like it Working over time in lovin' I hope tomorrow feels like this Yeah

Dreaming hard Brand new car And another home loan And the phone bill is overdue Don't give up on rainy days I've seen the sun come shining through On you and me Make you feel alright

We love it Glad to be alive I like it Working over time in lovin' I hope tomorrow feels like this Yeah

Life's so hard We can work it out Will it's a big tough city We can work out our way

We love it Glad to be alive I like it Working over time in lovin' I hope tomorrow feels like this Yeah
