

# Glow

Kylie Minogue

Glow, silhouettes and shadows  
Glow, I'm waiting in the dark  
Oh, heavy hearts are beating  
Oh close

Why won't you ever leave?  
I cry your name  
In pleasure every time that I'm in pain  
It's driving me so crazy  
The way you make my heart deceive me  
I toss and I turn

All night long, all night  
All night long, all night  
It's alright now, alright  
It's alright now, so right

Gold, shadows then it splatters  
Love, every night it grows  
So how can I endure it?  
I glow

Why won't you ever leave?  
I cry your name  
In pleasure every time that I'm in pain  
It's driving me so crazy  
The way you make my heart deceive me  
I toss and I turn

All night long, all night  
All night long, all night  
It's alright now, alright  
It's alright now, so right

It's alright now, so right  
It's so oh oh oh oh  
Oh oh oh oh oh oh oh oh  
Oh oh oh oh oh oh oh oh  
Oh oh oh oh oh oh oh oh  
Glow  
All night long, all night  
All night long, all night  
It's alright now, alright  
It's alright now, so alright
