

# I Miss You

Kylie Minogue

As soon as I wake up  
I'm starting to think of only you  
I read all your letters  
Over and over and over

I go to the mirror  
Next to the photograph of you  
I know it sounds crazy  
It brings me much closer to you

I know you'll be back one day  
I only behave this way

'Cos I miss you  
Yeah I miss you  
Said I miss you  
Yeah I miss you

They tell me I daydream  
But all of my dreams are only you  
I look through the window  
And wish I could be with you

They say that I'm wasting time  
But I can't get you off my mind

'Cos I miss you  
Yeah I miss you  
Said I miss you  
Yeah I miss you, yeah

Over and over  
I'm happy to be this way

And in the evening  
I lie on the bed and think of you  
I hug my pillow  
And make believe it's really you

I don't care what people say  
I'm happy to be this way

'Cos I miss you  
Yeah I miss you  
Said I miss you  
Yeah I miss you

'Cos I miss you  
Yeah I miss you  
Said I miss you  
Yeah I miss you

'Cos I miss you  
Yeah I miss you
